- \$100.00 1937. 1737 Granby or Higley Copper; obv. a deer, standing within a circle, facing left, "The value of three pence;" rev. three hammers crowned, "Connecticut, 1737." Of this rarest type of the Higley Copper, not more than three or four specimens are known: this one is in a beautiful state of preservation, and one of the most desirable coins in the collection.
- 15.00 1938. 1737 Higley Copper, similar in design to the last, but from a totally different die. This coin has been badly abused, and has much the appearance of being an engraved piece. This supposition, though, is set aside by the fact that its ownership can be traced for twenty years, to a period when these coins, being comparatively plenty and little valued, there could be no reason for its fabrication. It has been examined by critical judges, and by them pronounced genuine; and if genuine, is without doubt rarer than any other known variety. Without hazarding any opinion of his own, the owner submits this coin to the examination and decision of collectors.
- 35.00 1939. Granby Copper; obv. a deer standing, facing left, "Value me as you please," III.; rev. a broad axe, "I cut my way through." In fine condition for a piece so excessively rare.

- 22.00 1942. Pitt Token; obv. bust, with full wig, facing, "Gul: Pitt Libertatis Vindex;" rev. a wreath, surrounding clasped hands, holding a dagger, the point covered by a liberty cap, "Britannia et America Junctæ." For an account of this probably unique Pitt Token, see "American Historical Magazine," for February, 1863.

For description and illustration, see "Dickeson's Manual," and "American Historical Magazine."
